New Teslas Spiritual Pattern Enhancers

Large Adult Version

Smaller Teenager & Younger Version

Teslas Spiritual Pattern Enhancer

Every now and then there comes a new product that can have outstanding effects in your life. The product I am talking about is the new Teslas Spiritual Pattern Enhancer or the TSPH for short.

People are advancing today in their personal growth and are looking for new ways to achieve spiritual enlightenment. But many are finding that their old patterning is harder to release then they expected. This is because of the level of complexity that exists within us.

Last year the Teslas Starhenge was developed and it has had incredible results in helping people with their personal growth. While not everyone can have access to a Teslas Starhenge at this point in time, they can now have access to the new Teslas Spiritual Pattern Enhancer. This new plate has come about from the knowledge that has been gained by the development and use of the Teslas Starhenge. This new plate gives you the opportunity to take your personal growth to a whole new level.

The name Teslas Spiritual Pattern Enhancer gives you some idea of what it is used for. But to understand this properly you are going to need some form of reference why these words were chosen.

Why the name Teslas Spiritual Pattern Enhancer?

The **first** word Teslas is used to refer to special metal plates that have been treated with a technology developed by Nikola Tesla. This technology is designed to balance spin rates or as Nikola Tesla referred to it as Oscillations. Everything has a relation to these spin rates: electrons, cells, organs humans, Earth, Planets, Solar systems, Galaxies etc. These spin rates determine the quality of life. We will examine these later.

The **second** word spiritual: this refers to something more than just our physical being.

Move Energy Patterns That No Longer Serve You

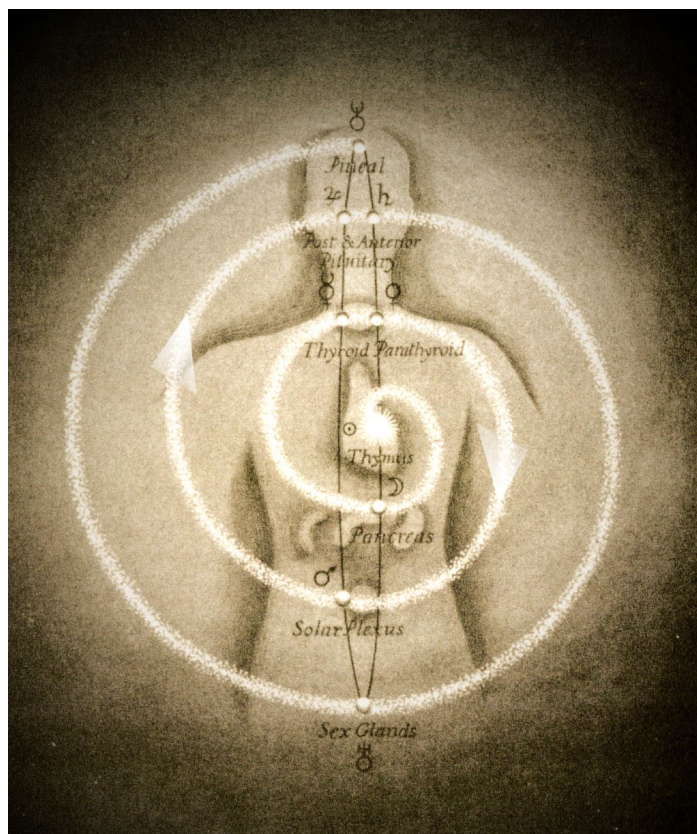

It can be many different things to different people but none the less it refers to our ability to connect to something more than ourselves. One of the jobs of the new Teslas Spiritual Pattern Enhancer is to open and clear the mechanism in our physical body that allows us to connect to the spiritual side of our lives.

The **third** word is Pattern: our lives are made up of many patterns that we have inherited, received when we were young and ones we have formed ourselves. Many of these patterns no longer serve us yet they play in the background effecting the way we see things and behave. The Teslas Spiritual Pattern Enhancer when used correctly helps to release those patterns.

The **forth** word is Enhancer: as the word means to lift up and to bring forward, to add character. The new Teslas Spiritual Pattern Enhancer is designed to lift you up from low thinking and to help you to go forward and embrace life with colour.

Why use the Teslas Spiritual Pattern Enhancer?

- ☆ To move energy patterns that no longer serve you.
- ☆ To be able to release a negative energy pattern the moment you recognise it in yourself.
- ☆ To clear your thought patterns when creating.
- ☆ To help you assess a situation more clearly.
- ☆ To help you connect at a spiritual level.
- ☆ To release & cleanse from Spiritual Attacks.

Description

It is a double sided oval shaped plate and comes in two sizes, a large version for adults and the smaller version for teenagers and younger. The plates are hand coloured and each has its own unique design. (See photo on front page_

How do you use it:

Following the sequence outlined in the picture below, the process should be completed seven times, the first time you use it, after this it is up to your discretion. But we do find if time permits doing it seven times is very thorough in clearing energy patterns.

Full directions of use come with the Teslas Spiritual Pattern Enhancer plate.

How often should you do this?

This will vary with each person depending on the resistance that exists in the individual to change and their willingness to let go. If you are open to it – do a full seven circuits morning and night for 7 days. After this you will know for yourself when you need to do it.

- ☆ If you know of something that you specifically want to shift, bring it to your attention, ask for clarity forgiveness and to release it, than start the process. Maybe you could not forgive before you started the process, see if you are able to forgive once you have completed the sequence.
- ☆ In another scenario you may be looking for clarity about a decision you have to make. This time you will ask for clarity, the highest good and the best way to move forward, than start the process.
- ☆ When looking to connect to higher realms empty your mind than go through the process. Once completed begin your meditation or prayer.

Once you have your own Teslas Spiritual Pattern Enhancer you will be able to experiment and use it in ways that serve you for your highest good. You can if you choose, perform this on another person while they stand still. It can be done both front and back of the person.

What is the investment for the Teslas Spiritual Pattern Enhancer?

When looking at the value and benefits it can bring to your life on many levels and those whom you choose to share it with, **it is priceless.**

The price will be \$550 but as an introductory price for the next two weeks it will be \$525 for the Adult and \$225 for the Teenager & younger.

When both these plates are used together amazing things begin to happen. As you clear the patterns that have held you back and they are dissolved into the universe, you will find the renewed energy from your chakras will give you the strength, power and will help to move you forward in your journey of life.

Teslas Chakra Balancer Brings Harmony To Your Life

A Beautiful Song

When I first looked at the Teslas Chakra Balancer back in 2006 I was immediately drawn to it as if the energy that was emanating from it was calling me. As I held it in my hands it was not long before I found out why. I placed it over my heart and it felt like a beautiful song was playing just for me.

How was it that what seemed like a piece of titanium metal had such strange powers? But this was no ordinary piece of titanium metal, and in fact I soon learned that it had been in a device that was designed by Nikola Tesla. This device would change the structure of the metal to a transceiver that tuned to certain frequencies in the Galaxy and the Earth to bring about harmony.

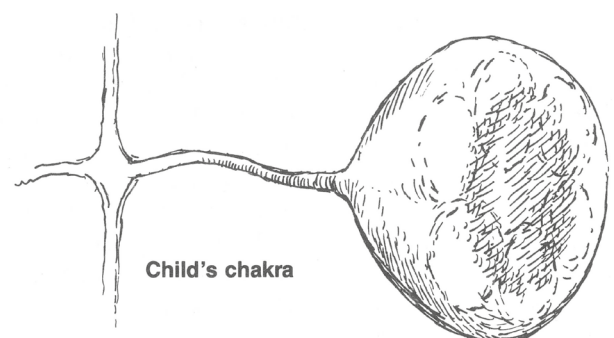

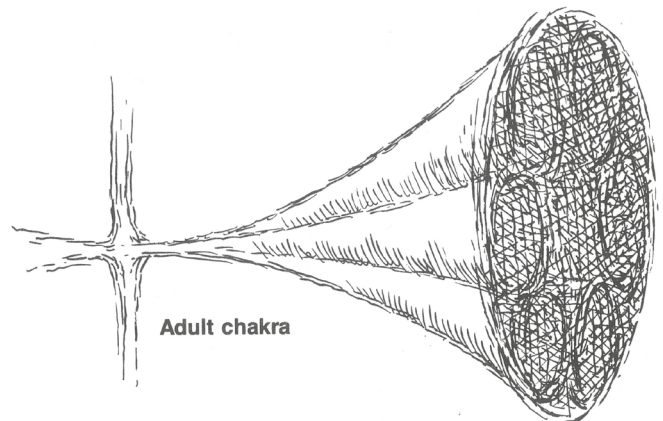

This sounded like a far stretch of a story but I could not deny what I was feeling with this Chakra Balancer Plate in my hand and my heart. The more I looked into Nikola Tesla I realized the man was a genius who had lodged over a thousand patents in his lifetime. He had a unique understanding of energy and how it worked with the human system. I decided to let my resistance go and let the Chakra Balancer do its work.

The Chakras

The knowledge of the Chakras goes back thousands of years in Indian history. They are described as stations along the central axis of your being. Each one is a point at which energy can be expressed and received in a certain set of actions, attitudes and emotions. The Chakras express your journey in life which you must move along for healing to happen. These points represent our physical, mental, emotional, and spiritual growth. When these points are flowing, healthy and in balance, then we are in harmony.

Opening of Chakras

In the book *Hands of Light* by Barbara Brennan on page 65 there are the two diagrams, one that shows an adult chakra and a child's chakra. As you can see a child's chakra does not fully open till the age of seven. It is important that if you work with a child under seven using the Chakra Balancer use it very lightly and for a short duration.

Restore Balance To The Chakras Very Quickly.

Why use the Teslas Chakra Balancer

When one understands the importance of having your Chakras in balance and at optima performance you will discover how good that makes you feel. Having the right tool can make it a quick and powerful way to bring about these results. Using the Teslas Chakra balancer is exceptional at restoring balance to the chakras very quickly. The energy that comes through the Chakra Balancer is something that is really in harmony with our bodies energy system.

How to use the Teslas Chakra Balancer

One of the recommended ways to use this beautiful plate is to hold it over the Heart about 100 to 150 mm (4 to 6 inches) away with the flat side facing you. You will then move it in and out till you start to feel the energy pulsing. You can also turn the plate in your hand at the same time you are moving it in and out. As you start to feel the pulse you can take the Chakra Balancer further away which helps to really open up the energy of the Chakras.

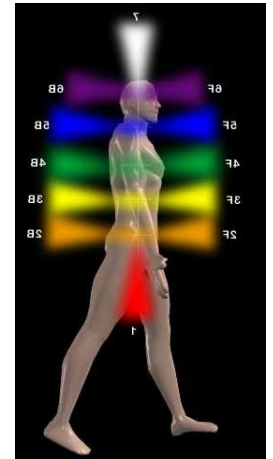

When you look at the diagram in the next column, you can see that the chakra projects out both sides of the body therefore it is very good if both sides can be done. This will require another person to help you to achieve this.

I have found for those who work on other people and providing it won't stretch the budget, having two Chakra

balancers lets you do both sides at the same time. This is extremely powerful.

Once you have completed the Heart Chakra move You can use the Teslas Chakra Balancer with all of the chakras.

There are over 360 of these energy points in the body but today we will focus on the 7 main chakras.

What is the investment for the Teslas Chakra Balancer?

When looking at the value and benefits it can bring to your life on many levels and those whom you choose to share it with, **it is priceless.**

The price is \$605

Teslas Starhenge

What does it do?

One of the most exciting things to be developed over the last couple of years is the **Teslas Starhenge** which was completed in July last year.

It is described as a working version of Stonehenge or the equivalent to sitting in the Kings Chamber at the Great Pyramid of Giza.

The **Teslas Starhenge** provides a unique and powerful, holistic solution to stress reduction, purifying the body and clearing energy blockages.

The **Teslas Starhenge** is a Multi-Dimensional Oscillator – It brings balance to the energy and emotional systems by reading the energy fields of the person or situation, while assisting people to new ways of thinking. It enhances the energy flow through the twelve meridians and other energy systems of the body.

Many have felt a higher connection to other realms while in the Teslas Starhenge bringing clarity to their lives. The **Teslas Starhenge** works at a deep spiritual level by tapping into dimensions that are beyond the Physical Plane.

When Kim Kirkman from Lift Gallery visited the Teslas Starhenge he said:

"I was ready to embrace the energy that was there ... I felt the energy come through every cell in my body lighting it up with white light and reshaping itself ... my imagination and dreams were so wild and big and I really felt them so easily becoming a reality."

The **Teslas Starhenge** tends to open the thought patterns of the individual to a higher

vibration helping them to make better choices in their lives. CEOs, business operators, sports people and politicians and those who depend on making good decisions may find their decision making improves. It may also enhance relationships by improving co-operative thought process between people.

The New Tablet and Laptop Tag Set

How safe is your Tablet and Laptop?

After much research and testing the Tablet and Laptop Tag Set (TLTS) has been developed for Tablets and Laptops.

This new tag set is a very powerful answer to the many devices that people are using. These devices are generating Electro Magnetic Frequencies (EMF) that are causing our DNA to break down.

This has been proved by seeing the DNA generate heat shock proteins due to the damage that is being caused by EMFs.

Electromagnetic (EM) and Microwave fields emanating from the blue tooth and Wi-Fi antennas of Tablets and Laptops are believed to cause bio-energy effects to the DNA when they are in use.

Dr Mercola sends out warning.

Researchers Warn Laptop Computers Should be renamed to Protect Users' Health

"New research published in the Archives of Environmental and Occupational Health evaluated five commonly used laptops of different brands.

"After measuring the EMF exposure produced, researchers found EMF values were within the guidelines put forth by the International Commission on Non-Ionizing Radiation Protection (ICNIRP), but "considerably higher than the values recommended by 2 recent guidelines for computer monitors magnetic field emissions, MPR II (Swedish Board for Technical Accreditation) and TCO (Swedish Confederation of Professional Employees), and those considered risky for tumor development."

"Further they noted that the EMF values became alarmingly high when the laptop was used close to the body:

"When close to the body, the laptop induces currents that are within 34.2% to 49.8% ICNIRP recommendations, but not negligible, to the adult's body and to the fetus (in pregnant women).

On the contrary, the power supply induces strong intra-corporal electric current densities in the fetus and in the adult subject, which are respectively 182-263% and 71-483% higher than ICNIRP 98 basic restriction recommended to prevent adverse health effects."

This led them to conclude:

"Laptop is paradoxically an improper site for the use of a LTC, which consequently should be renamed to not induce customers towards an improper use."

Dr Mercola's Personal Experience with Laptops

"I have used a 13-inch notebook for many years as I travel. It was a marvelous way to keep productive during my travels on a plane and as a passenger in a car. For some reason it never occurred to me to measure the EMF radiation coming from the device. Recently I used a gauss meter on my notebook computer, and on those of a number of my staff.

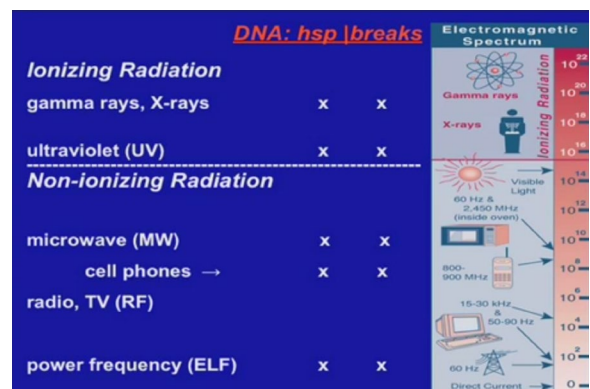

"I was **shocked** to find that the EMF levels were off the chart on the device and most readings were higher than 100 milligauss. Safe ranges are less than 0.3. I do still use my notebook computer, but needless to say I have made some VERY serious adjustments to using it -- and I would strongly encourage you to do the same. Most of the radiation decreases about 2-3 inches away from the computer. So I have been using an external keyboard ever since I found out that the readings were so high. I never put the device on my lap unless there is a 1-foot cushion under the notebook, as that is about how far the field extends out."

"If you don't believe me on this one I would strongly encourage you to get a gauss meter and measure your own notebook computer and see for yourself."

Dr Martin Blows the Whistle

When Dr Martin Blank spoke in 2010 he stated how we can now know for shore about the damage that is being done right across the man-made electromagnetic fields to our DNA. He specialized in the study of Heat Shock proteins that the DNA produces when effected by EMFs. This is a response by the DNA because of the strands breaking down by these frequencies.

He said we can tell this now because we have identified the 20 proteins produced by the DNA that are involved with heat stress response and in particular the one named HSP 70.

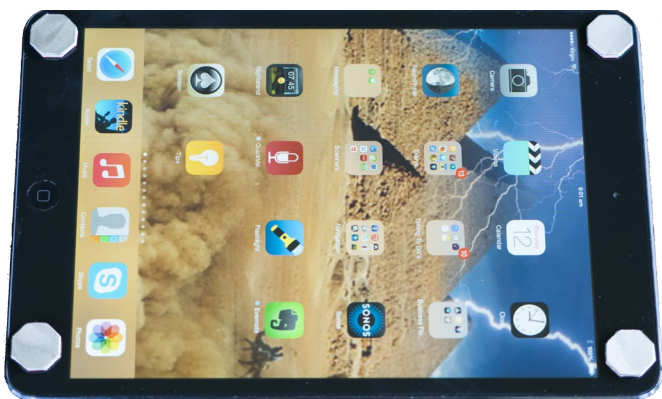

EMFs Cause Heat Shock Protein Activation In The DNA

Results from fitting the new Teslas Tablet and Laptop Tag Set

Testing done with the micro-capillary microscope has shown the blood flow slowing down considerably while the person was using a device that was connected via Blue-tooth or Wi-Fi, whereas the same person's blood flow increased when the same Tablet or Laptop was fitted with Teslas Products

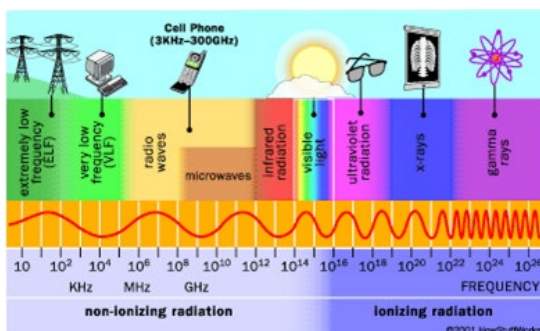

Thermal image tests have shown the heat patterns when a laptop or tablets are just 10mm above the skin, but when the same test was done with a the Teslas Tags fitted to the either device there is no heat pattern from the laptop and tablets.

When the Tablet and Laptop Tag Set is fitted correctly to your device, it may help alleviate the energetic effects associated with EMFs.

Dr Martin Blanks evidence linking Heat Shock proteins in the DNA to devices that emit EMF's and the health problems related to this should be a wakeup call to all of us.

You may require more mainstream scientific studies that are complete and excepted by the authorities that prove 100% the effects these devices are having on us, but if that is the case we should err on the side of caution and take our own precautions till that day comes. Remember how long it took to get the tobacco industry to accept that there was a problem, let alone to get the mobile device industry, which is much bigger, to admit to the problem that exists with EMFs today.

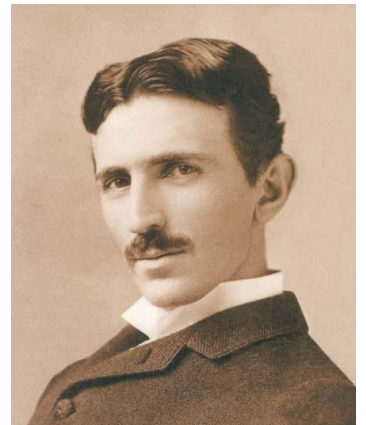

The range of frequencies that can effect us.

Nikola Tesla

Nikola Tesla was a genius who had lodged over a thousand patents in his lifetime. He had a unique understanding of energy and how it worked with the human system.

He was so concerned about the detrimental effects of some of his earlier inventions like AC electricity, Microwaves, Wireless devises etc. we're having on humans.

To counteract this he designed a device that would change the structure of certain metals to a transceiver that once changed would tune to certain frequencies in our Galaxy and the Earth to bring about harmony to these EMFs.

Many people over the last 20 years who have used the Teslas plates, which are altered by this device, designed by Tesla. They testify to the benefits and wellbeing it has brought to their lives.

The new Teslas Tablet and Laptop Tag Set comes ready to fit with double sided tape already attached; fitting instructions follow.

What is the investment for the Teslas Tablet and Laptop Tag Set?

When looking at the value it can bring to the health of your DNA and your life not to mention those whom you share your devices with and the benefits it achieves, **it is priceless.**

The price for a set of four tags is \$180.

The Teslas Tablet and Laptop Tag Set will be effective for the rest of your life and can be transferred to new devices when you purchase them.

Teslas Pendants For Pets

Pets and Inflammation

Our pets are being effected by all the Electro Magnetic Frequencies and are exhibiting the disease that are caused by inflammation from EMFs.

Because we care we have a specific range of Teslas products just for our pets. Many people have asked for these over the years and now we have them.

After 24 hours the Pets **Furry Friend Pendant** will have adapted to their energy matrix and should then not be worn by other pets.

The **Furry Friend Pendant** was specifically designed to be worn on the collar and has a unique tie cable. During the proprietary manufacturing process the vibrational signature of the metal (Titanium) has been varied so that it acts as a transceiver of specific photons (packets of light/energy).

This product then has the effect of strengthening your pets energy field, thus helping to alleviate the bio-energy effects of some man-made EMF/EMR. The process is similar to an antidote, which transforms a poison to neutral and educates the body to resist the poison next time. Testing has been done on a variety of pets after they have worn the FFP in **the correct position for 24 hours** with great results.

The proprietary treated metal in the Furry Friend Pendant is not affected by any chemicals (body acids or chemicals in water etc.), so bathing or swimming with the Furry Friend Pendant on **is recommended**.

The Furry Friend Pendant has been found to assist pets with:

- ☆ Arthritis
- ☆ Balance
- ☆ Anxiety
- ☆ Sleep
- ☆ Inflammation
- ☆ Pain
- ☆ Sadness
- ☆ Sluggishness
- ☆ Shock
- ☆ Trauma
- ☆ Vitality
- ☆ Indigestion

The Spinning Universe

Every thing in our universe is on the move from the greatest Galaxy's, the planets and Stars in them right down to the smallest atoms in us.

What does it mean when we look at our own planet and the speed it travels at the equator, 28 kl a minute all the way down to 10 kl at the antarctic. A larger Spin rates represents a greater ability to unlock the minerals in the Earth. That is why plants grows four times as fast at the equator than in Melbourne or Canada.

It is important for us as humans that the spin rates of the electrons in our atoms are at an optimum so that they can interact with the minerals in us. This enhances the energy level we can utilize on any given day.

Tesla understood spin rates and he realized that everything has an opposite including things that spin. He would refer to this as oscillations. Through this understanding he discovered Scalar waves and was able to transmit electricity through the ground and air without wires. He also discovered that our DNA operates with Scalar waves.

These Scalar waves are generated when the electrons cycle back and forth through the ring network of the minerals. This creates a magnetic wave which then generates a Scalar wave.

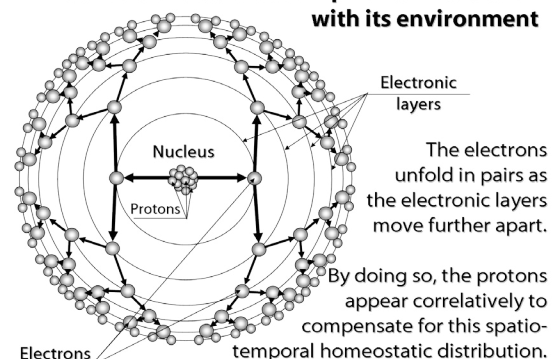

To transmit Scalar waves requires an Antenna. So where is the

Antenna in our DNA? Well it turns out that our DNA is a Fractal Antenna. If you were to take the DNA out of one of your cells it would stretch out to two meter's long. Thus by the way that it curls up in the cell it forms the same characteristics of a Fractal Antenna.

This gives the DNA the capacity to operate with many different frequencies, both sending and receiving information.

What a shame it is that we did not adopt Nikola Teslas concept of free Scalar Energy. Had we adopted it we would not be subject to all the damage that is being done to our DNA today by Electro Magnetic pollution.

Genesis of a stable atom prior to interaction with its environment

Creating a Clean Energy Environment

In Search Of Harmony

In our chaotic world people are constantly searching for a safe haven where they can find peace even if it is for a short period each day. But often the atmosphere they try to create eludes them. They attempt to create this space in their own home surrounding themselves with all the latest electrical technology and modern conveniences. This is extended to their computer driven cars with all the creature comforts.

Many people are strongly aware that something is not quite right, they can feel it, but they can never put their finger on it. They know it is affecting their health and thought patterns.

We have encircled the earth and infused the earth's atmosphere with these non-ionizing electromagnetic fields - frequencies in ways that don't exist in nature. We use unnatural strengths, Alternating Current, digital signals, all sorts of odd frequencies, without any understanding of the full biological effects on both the earth and its inhabitants. In reality everyone is affected by EMFs. In fact there are few if any other factors currently as adverse to the 'ease' of the human body.

The Solution

In today's world we are surrounded and bombarded with all types of energy. It is amazing that we withstand the onslaught to our cells from High tension power lines, Wireless transmissions, Microwaves, Phone towers, Electro Magnetic frequencies combined with the earth energies in different places.

After much research and development there is an answer to our polluted EMF atmosphere.

Today Teslas Technologies have a number of different Plates and technologies to counter the effects of each of these energies using its proprietary technology.

1000's of people today now use this technology and feel what it is like to live in a energy clean home or work place with out the bombardment of these energies in their lives. Many people who could no longer go to shopping centers because of the high levels of Electro magnetic Stress can now shop again with out being affected and are very thankful.

The House Kit

To assist people cover their house, car, phones, water and bodies, Tesla's products help you to enjoy the atmosphere your body craves for. **This is a once only lifetime purchase. It will last you the rest of your life. It is transportable, when you move house you easily take it with you.**
